Since Earth is rather punctual and always takes 365 days (with the exception of Leap Year) to travel once around the central star, it makes perfect sense that on a given date, it should be at exactly the same spot in the orbit where it was the previous year, as well as for subsequent years in future.

Is Earth Always In The Same Location On Your Birthday ...

All the server instances that host availability replicas for an availability group must use the same SQL Server collation. Set or Change the Server Collation: Enable the Always On availability groups feature on each server instance that will host an availability replica for any availability group.

Availability group: Prerequisites, restrictions ...

"I have not always chosen the safest path. I've made my mistakes, plenty of them. I sometimes jump too soon and fail to appreciate the consequences. But I've learned something important along the way: I've learned to heed the call of my heart. I've learned that the safest path is not always the best path and I've learned that the voice of ...

Path Quotes (1091 quotes)

In this view, the earth turns to the right (west to east) underneath the path, causing the ISS to pass over ground farther to the west every orbit. If the earth were a perfect sphere and alone in space, the orbital path in this view would not drift. But it does move over time.

Does the International Space Station always travels in the ...

Some customers use the same port number for the SQL Server instances as well as for the Listener (Figure 5, so that they need to allow only one port through the firewall. Figure 5: SQL Server AlwaysOn AG HADR configuration with the same (non-default) port number for SQL Server instances and the AG Listener

AlwaysOn Availability Groups, Listener, Named Instances ...

The Ecliptic. The path of the Sun across the celestial sphere is very close to that of the planets and the moon. After clocks became available, it was a relatively straightforward job for astronomers to relate the path of the Sun in the daytime to the one of stars at night, and to draw it on their star charts.
