Electro-Harmonix. The most in-demand analog delay ever built. Musicians love it and collectors cherish it. Experience the analog edge. Nothing can compare to the organic sound of analog delay, and no one does analog like the Deluxe Memory Man!

Electro-Harmonix Deluxe Memory Man - Solid State Echo ...

Memory Man op-amp IC chip upgrades There are a few web sites and posts about improving the sound of an EH deluxe memory man, by replacing the normal 4558 op amps with some high tech chips. The noise and tone in a memory man comes from the BBD chips, not the op amps. The BBD chips have about 10,000 times more noise, and very low fidelity.
