Question 5 included the term xylem, which is not specifically mentioned in the SL Biology programme, but Assessment Statement 3.1.6 indicates that candidates should understand the relationship between water's properties and its use as a transport medium.

## **IB Questionbank**

Comments on the G2 forms suggested that the question was poorly worded, and this may be a legitimate point. Many candidates picked option B (same genetic material) rather than A (same genetic code), but it was felt that the word code is precise and often used too loosely by students. It does have a

different meaning to “material”.
