Where's the Giraffe? - The Getty Store

Giraffes are the world's tallest mammals, thanks to their towering legs and long necks. A giraffe's legs alone are taller than many humans—about 6 feet . These long legs allow giraffes to run as fast as 35 miles an hour over short distances and cruise comfortably at 10 miles an hour over longer distances.

Amazon.com: Customer reviews: Where's the Giraffe?

Where's the review? HERE IT IS. Is this book good? YES IT IS. Are the flaps interactive, soft, and in charming, bright colors? YES THEY ARE. Is this book - like all baby books - skewed towards charismatic megafauna, and neglecting ecologically important niche species and common-but-vital species like the underrated superorganism, the ant?
